DESCRIPTION::

Codetta is a busy product design firm based in Victoria, BC. Our primary client base is in the music industry so if you are looking to design rugged creative tools for musicians then codetta is your place. We also develop medical, Industrial, and consumer products for clients spanning the globe; from Victoria to Denmark, New York to Seattle.

We are currently seeking an Industrial Designer with a passion for their work and experience in consumer product design. Proficiency with Pro/Engineer is a must along with excellent conceptual thinking, communication and mechanical design skills.

SPECIFIC SKILLS::

Strong Visualization and problem solving skills a must.
Pro/Engineer or other 3-D CAD experience required.
Rhino/Flamingo rendering experience a plus.
Bachelor degree in Industrial Design.
4+ years design experience preferably in a consultancy environment.
Microsoft Office knowledge required.
Strong visual and verbal presentation skills.
Experience in Injection molding design, Sheet-metal design, casting design, etc.
Knowledge of material properties.
Work independently on multiple projects.
Strong written and verbal communications skills.

Only designers with relevant and verifiable experience should apply for this role.

Salary – based on experience

HOW TO APPLY::
